Subject: RE: Mis-selling

Hi [REDACTED],

The outcome was that Policy Executive was minded to put forward a recommendation to the Board for mandatory codes. It is now going to the next available Board meeting which I have been informed will be the 21 September (as 7th September is apparently fully booked). Accordingly, I am not sure whether there is a need for the Panel to reiterate its case for the purpose of the Board discussion although clearly that is a matter for the Panel.
