Is this you?

You may be a young carer

www.carerssupportcentre.org.uk

How your GP can help

We will try and help you to stay as fit and healthy as possible. Often we can help young carers by:

Giving free flu vaccinations

Adding your name to our 'carers register' so that we can let you know about things that may help you

Helping you get appointments at times that work for you

Sometimes we can speak to you about the condition of the person you care for or the medication they are using

Listening to how caring is affecting you and what you think is best for the person you look after

Please register yourself as a carer at reception or discuss it with your Doctor.

Help for Young Carers

It's difficult looking after someone. It's important for you to have some help and support for yourself.

Carers Support Centre

Carers Support Centre is a charity that supports young carers in Bristol and South Gloucestershire. You can talk to them in complete confidence about your situation. They will listen and try to help you get the support you need.

Call CarersLine: 0117 965 2200

Or text: 07722 283 673

Text your name and where you live and someone will text you back as soon as possible.

Support at school

Let your school know that you are a young carer. Speak to someone at school that you know and trust. This might be a tutor. Some schools run groups especially for young carers. If your school doesn't, please ask them to refer you to Carers Support Centre.

Money for breaks

If you are a young carer living in Bristol, or have a Bristol GP, you will be able to have a carers assessment. This could mean getting money to spend on a break. For example, you could use this money to buy:

A laptop to help with homework & chat with friends

Cinema membership

A holiday away with the person you look after
