

Intensive Care of the Polytrauma Patient

This module is suitable for experienced nurses and other acute healthcare practitioners involved in the care of polytrauma patients within an adult intensive care environment. It is designed to increase the knowledge, skills and expertise required to care for this increasingly complex group of patients with a multitude of severe injuries.

Module Codes: Level 6 HP6008X, Level 7 AP7021X

Trauma Care - Initial Assessment and Management

This module is suitable for nurses and Practitioners directly involved in the emergency care of Polytrauma patients. A range of traumatic injuries will be explored but the focus will be upon initial assessment and management of these patients in the context of the Emergency Department.

Module Codes: Level 6 HP6020X, Level 7 HP7021X
