

Ministerium Tuum Imple Love Serve Do the best that is possible

**A specialist Science College and Training School
Invites you to a Public Understanding of Science Lecture:**

Acoustics By The Sea

Professor David Sharp has made four appearances on BBC Coast and was an academic consultant for the series. In his talk, Professor Sharp will discuss his experience of filming science-related items for the programme, covering features on sound mirrors, foghorns, squeaking sand and Fingal's cave.

The talk includes plenty of video clips from the Coast programmes and covers the science underpinning the features, as well as giving inside information regarding some of the tricks employed when filming for television.

A talk by David Sharp

**Professor of Musical Acoustics in the STEM Faculty and Head of
the School of Engineering and Innovation at the Open University.**
